Hello Michelle - I enjoyed speaking with you today. For your reference I'm attaching materials that Lisa Berrios shared with the Seminoles in December regarding information about 404 Assumption. I spoke with Phil following our call, and he shared that he's in the office next week and available to talk. I'm copying Rosemary Calli and Matt Hicks, as they also work for EPA Region 4 and also working on Assumption. After today I'll be out of the office until April 9, and I'm generally available to talk then. Have a great weekend! Tom

Subject: Seminole Tribe

Dear Tom,

Thank you so much for talking with me today about the Seminole Tribe's interest in the State of Florida's request for assumption of the 404 program from EPA. I look forward to further discussions with you, Phil and the Seminole Tribe's team.

As discussed I suggest we get a call scheduled with Cherise Maples, Director of the Seminole Tribe's Environmental Resource Management Department, Paul Backhouse the Seminole Tribe's Tribal Historic Preservation Officer, Jim Shore, the Seminole Tribe's General Counsel and us to discuss the process where things are and questions that the Tribe has so far. That would be useful while we work on dates for an in person meeting in Atlanta to discuss potential language for the MOA between EPA and Florida to address the Tribe's ability to comment on and participate in permit decisions that could affect its Reservations, trust lands, water rights and cultural resources.
Thank you again, Michelle
